

INTRODUCTION

Welcome to the Phil Latz website, Australian author of many published articles, and now his illustrated autobiographical book covering 60 years. It explains why he is the only one ever to crash (next to a model) on Ayers Rock, the world famous monolith.

His CD about the worlds largest (Russian) helicopter contains an exclusive `translation' of the monster choppers limitations in proper English format, which took over three months to compile. Plus `in depth' photos and graphs.
